

DLAN Essentials

This is this is your next step. DLAN Essentials is where you want to be.

Entry-Level Incident Management

DLAN Essentials is the *next step* to managing your own incidents and having internal communications, internal tracking, while still having the benefits of sharing information and requests with the province with a single-click when needed.

Enhanced tools for local Communication, Coordination, & Cooperation

- 10 Concurrent Users
- Create your own Incidents
- Ontario Customers Only
- Task & Resource Management, Pre-Config Status Boards, and User Security Permission Management
- Training Video Provided
- Single-click sync for internal/external collaboration
- Hosted in Canada

A Perfect Compliment to Your Workflow

BCG subject matter experts scoped the must-have capabilities for CEMCs and created a day-to-day All-Hazards package. **DLAN Essentials** is an entry-level Incident Management System (IMS) crafted to augment the capabilities of smaller Ontario entities by providing the ability to create your own incidents, track your own missions and tasks, and sync data for internal/external collaboration with a single-click.

This Is the *Next Step* in Your Journey.

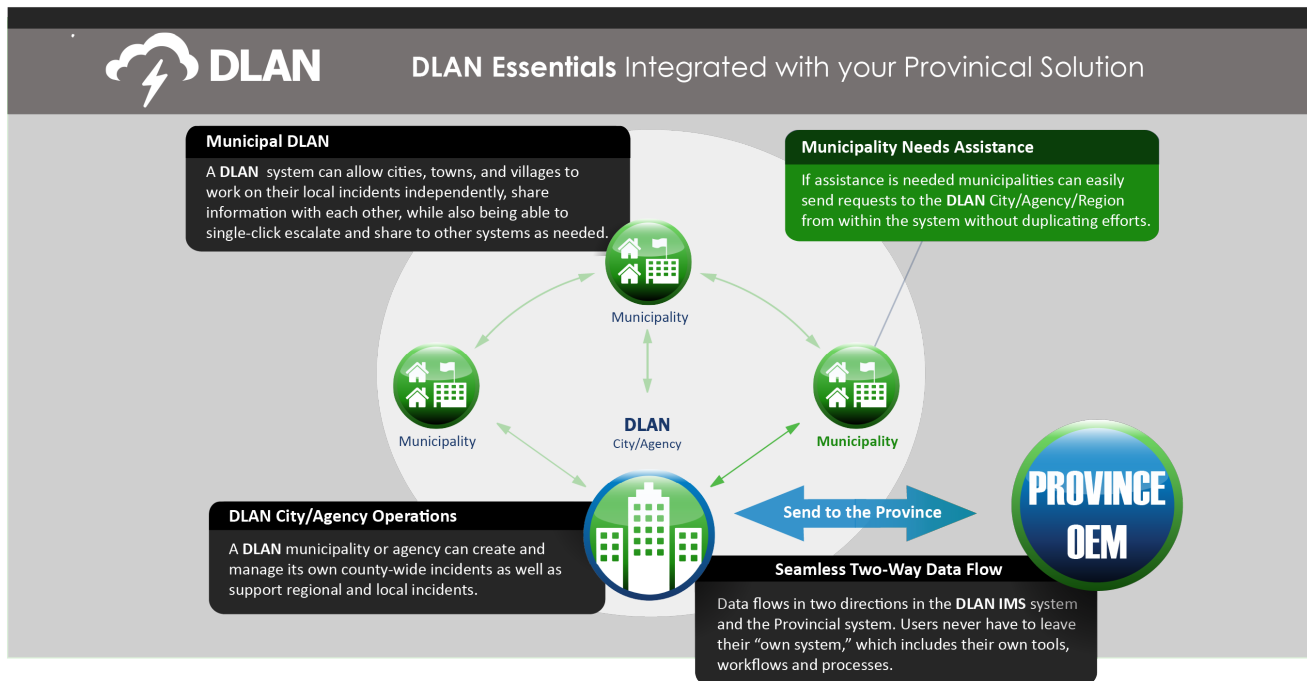

**EXCLUSIVE
ON PRICE**

UNDER \$10K

Control Your Own Incidents

This is the next step in your journey. Do you want to manage your own incidents? Do you want to be able to control your own statuses? Do you want to manage things that the province is not activated for?

DLAN Essentials provides the tools to have more granular control of your operations. Fully upgradeable, you have the option to add even more modules down the road.

DLAN Essentials will provide you with direct local Support and Subject Matter Experts, greater functionality, enhanced Interoperability, and greater Situational Awareness at an **entry-level cost**, all with easier, **expanded payment options**.

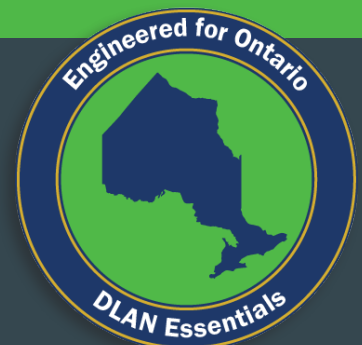

Use your CEPG grant funding!

CEPG Community Emergency Preparedness Grant

Ontario is boosting local emergency preparedness to protect Ontario by supporting communities across the province to prepare, plan, mitigate, respond, or recover from any emergency.

CEPG provides funding to help communities and organizations purchase emergency supplies, equipment and services, supporting local efforts to protect Ontario by enhancing readiness and response capabilities.

This investment is part of the \$110 million the government earmarked over three years to strengthen emergency preparedness in Ontario.
